

LIST OF CORRECTIONS

This publication has been prepared primarily by assembling and binding the maps and tabular materials originally issued in the separate PC(1)-A, B, C, and D final reports for the State. This plan was adopted in order to conserve public funds. The corrections listed below represent changes which would ordinarily have been made if this publication had been prepared by reprinting these maps and tabular materials. Those items with an asterisk (*) consist of

errors which affect not only the specific figure(s) mentioned but also affect other data in this publication. Among the other data which might be involved are the statistics for a larger area of which the particular area is part and the statistics by such classifications as urban-rural residence and size of place. The user can, of course, carry through these types of changes if he thinks them worthwhile.

Page 2, Map

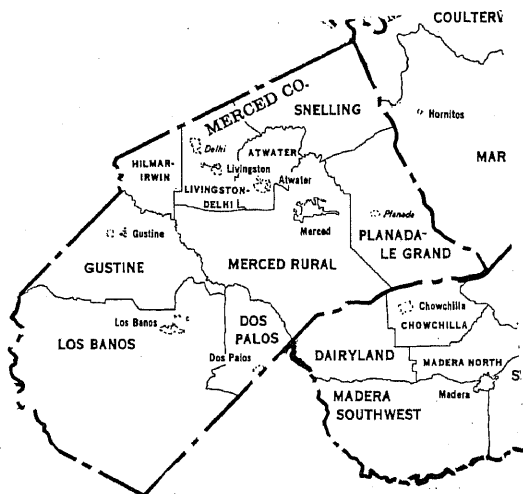

Contra Costa County (map location I-5): Name misspelled.
San Mateo County (F-13): San Bruno incorrectly located; should be approximately two inches to the east of location shown.
Santa Cruz County (J-4): Santa Cruz city name omitted.
Ventura County (P-8): Islands in Ventura County should not be shaded.

Pages 2, 8, and 11, Maps

Inyo and San Bernardino Counties: The boundary between these two counties was changed by legislative action in 1957, but the maps shown in this report do not reflect this change. The new boundary runs directly east from the northwest corner of San Bernardino County to within approximately five miles of the California-Nevada State line, then northward for approximately one mile, then easterly to the State line.

Page 6, Map

Merced County was not shown (Section 4). The omitted portion is as follows:

Page 8, Map

Tulare County (M-7): Name of Farmersville (U) in Exeter division omitted.

Page 10, Map

Ventura County (P-6): Avenue-Rincon division shown as Rincon division.

Page 39, Map

Los Angeles County: Name of Commerce shown as Commerce City.

Page 17, table 3

Obliterated figures in second column are as follows:

Rural territory:	
Places of 1,000 to 2,500.....	50
Places under 1,000.....	25

Page 19, table 5

Long Beach: Change 1960 population from 334,168 to 344,168; numerical increase, 1950 to 1960, from 83,401 to 93,401; and percent increase, 1950 to 1960, from 33.3 to 37.2.

Page 22, table 5

Summitvale: Change 1960 population from 59,898 to 52,898; numerical increase, 1950 to 1960, from 50,069 to 43,069; and percent increase, 1950 to 1960, from 509.4 to 438.2.

Page 23, table 6

The State: Change percent increase, 1950 to 1960, urban, from 59.0 to 58.9.

Inyo County: Change land area from 10,091 to 10,097.

San Bernardino County: Change land area from 20,131 to 20,125.

▲ footnote: Change figures for Alameda County from 864,727 to 874,331, and 29,865 to 20,261; change figures for Contra Costa County from 176,607 to 167,003, and 155,256 to 164,860, respectively.

Pages 26 and 28, tables 7 and 8

Shasta County: Bonnyview (U) shown as Bonnyville (U).

Pages 26 and 29, tables 7 and 8

San Luis Obispo County: Morro Beach (U) shown as Mirro Beach (U).

Page 27, table 7

Footnote 33: Grover city should read Grover City.

Page 29, table 8

Delete asterisk (*) after Mendota.

Page 31, table 9

Santa Barbara: Change 1950 population total from 44,913 to 44,854; change increase, 1950 to 1960, in 1950 area, from 10,492 to 10,551.

Page 32, table 10

Fresno Urbanized Area: Mendota city improperly included in area.

Page 35, table 11

SMSA, central city, and other component areas	1950		Increase			
			Number		Percent	
	From	To	From	To	From	To
Santa Barbara city.....	44,913	44,854	13,855	13,914	30.8	31.0
Outside central city.....	53,307	53,366	56,887	56,828	106.7	106.5

Pages 59-63, table 16

Delete all footnote "1" symbols from last 3 columns, and add symbol to "1950" in heading.

Pages 64 and 65, table 17

Place footnote symbol "2" on the 1950 figures for age groups 5 to 9 years, 10 to 14 years, and 15 to 19 years, for All Classes, Total and Male, and Nonwhite, Total and Male.

Tables 19 and 28*

The number of inmates shown in table 28 for Fresno County includes approximately 444 persons who should have been classified as "other" persons in group quarters. Approximately 1,730 persons were similarly misclassified in the statistics for Los Angeles County and 178 persons for Sacramento County. The number of inmates shown in table 28 for Alameda County excludes approximately 129 persons who were misclassified as "other" persons in group quarters. Approximately 233 persons were similarly misclassified in the statistics for Kern County. These misclassifications also affect the corresponding number for the State, shown in table 19.

Table 21*

The number of inmates shown for Bakersfield Standard Metropolitan Statistical Area excludes approximately 233 persons who were misclassified as "other" persons in group quarters. Approximately 129 persons were similarly misclassified in the statistics for Oakland city, San Francisco-Oakland Urbanized Area, and San Francisco-Oakland SMSA. The number of inmates shown for Fresno city, Fresno Urbanized Area, and Fresno SMSA includes approximately 444 persons who should have been classified as "other" persons in group quarters. Approximately 309 persons were similarly misclassified in the statistics for Long Beach city; 1,730 persons for Los Angeles-Long Beach Urbanized Area and Los Angeles-Long Beach SMSA; and 178 persons for Sacramento city, Sacramento Urbanized Area, and Sacramento SMSA.

Tables 35, 37 to 44, 46 to 52, 54 to 58, 60, 61, 63 to 65, 67, 69, 71, and 91 to 93

In the chapter C tabulations for California, 17,003 persons (almost all males) living in group quarters that housed agricultural workers were classified incorrectly as rural-nonfarm residents. These quarters were located on farms, and hence these persons should have been classified as rural-farm residents. All chapter C tables which present data on farm-nonfarm residence are subject to this error. The overall impact appears fairly small for rural-nonfarm males, amounting to an overstatement of about two percent; for rural-farm males, on the other hand, the understatement is about nine percent. The impact of the error on the figures for particular groups or areas may, of course, be substantially smaller or greater. When this error was discovered, it was no longer feasible to retabulate the chapter C data. In the chapter D tabulations, however, the error was eliminated; and therefore, for certain subjects, correct State figures can be obtained from the appropriate chapter D tables. For corrections in chapter C table 37, see chapter D table 95; 38, see 96; 44 and 46, see 101; 47, see 103; 48, see 104; 49 and 50, see 106 and 107; 51, see 113; 52 and 54, see 115; 55, see 118; 57, see 121; 65, see 139; 67, see 133; 71, see specific subject tables listed above.

(Continued on next page)

List of Corrections

XLVII

Pages 233 and 410, tables 42 and 82*

The category "Different house, same county," erroneously includes 71,150 persons for the State, 1960, who should have been classified as "Different county, same State." This error also affected the figures for Los Angeles County in table 82.

Pages 261-264, table 71

These four pages were reprinted prior to binding of this book. Certain corrections were made in the figures for the columns for "Central cities" and "Other urban." The figures shown here, therefore, supersede those originally published for these columns in the Final Report PG(1)-60.

Page 412, table 82*

The data on place of work for Orange County are in error. The figures for "Worked in county of residence" and "Worked outside county of residence" should be changed from 197,953 and 39,678 to 173,542 and 64,089, respectively. Data by color are not available for correction of table 87.

Page 463, table C-2

The nonresponse rates for "Birth date, decade unknown" erroneously exclude nonresponses for group quarters members other than inmates.

Pages 464 and 467, tables C-2 and C-3

Delete "Note" at end of tables. Nonresponse allocation rates for family income are somewhat overstated; for a detailed discussion, see text, p. XLII.

Pages 696-790, tables 122 to 124

On each page showing Male, Operatives and kindred workers, the line reading "Furnacemen, smeltermen, and heaters" should be changed to "Furnacemen, smeltermen, and pourers."

Pages 920, 921, and 924, table 131*

During the tabulation of statistics on place of work, it was discovered that some enumerators working in unincorporated areas near large cities had failed to identify correctly these large cities as places of work (see text, p. XXXVI). In the tabulations for chapter C, a corrective mechanical edit was introduced that allocated such cases to the largest city in the same county. In some few instances, notably Armed Forces installations, the initial entries were correct, and appreciable numbers of persons living in the ring were incorrectly assigned the central city as a place of work by the edit.

Pages 920, 921, and 924, table 131--Con.

Since many of these persons had reported themselves as working at home, the previous edit was expanded in the tabulations for chapter D to assign these latter cases, as well as other inconsistencies of the same type, to means of transportation not reported. The amount then by which the chapter D figure exceeds the chapter C figure for the "Not reported" category in means of transportation for persons living in the SMSA ring provides a rough measure of the amount of the error involved; that is, the amount by which the total figure in column 8 should be decreased and the total figure in column 9 increased. This number was 8,109 for the San Bernardino-Riverside-Ontario SMSA, 16,001 for the San Diego SMSA, and 988 for the Santa Barbara SMSA. In the remaining SMSA's in this State, the effects of the error, if it existed, were very slight. Detailed information on the characteristics of the misclassified persons is not available, but most of them were young men in the Armed Forces.

Pages 985 and 988, table D-1

The following explanatory footnote should be keyed to the line for "Not reported" in the section on "Relationship":

Limited to persons who were allocated to the categories "Wife of head," "Other relative of head," or "Nonrelative of head."

Pages 985 and 988, table D-1

The category "Not reported in decade or year" under "Age" erroneously excludes non-responses on decade of birth for group quarters members other than inmates.

Pages 985 and 988, table D-1

Year moved into present house, 1959 to 1960:
